Chapter 1 General overview

1.1 Introduction 1
1.1.2 Endometritis 2
1.1.3 Oviduct 4
1.1.4 The role of immunomediators and other molecules in successful pregnancy 5
1.1.5 MiRNAs 7

1.2 Rationale and objectives 10

1.3 Materials and methods 11
1.3.1.1 Total RNA isolation from BOEC and endometrial cells 11
1.3.1.2 Total RNA isolation from embryos (blastocyst stage) 11
1.3.2 First strand cDNA synthesis for large and small RNA 11
1.3.3 Quantitative real-time PCR (qRT-PCR) 12
1.3.4 Western immunoblotting 12
1.3.5 Luciferase reporter constructions and luciferase assay 12
1.3.6 Experimental design 13
1.3.7 Statistical analysis 14

1.4 Results 15
1.4.1 Changes in expression of genes associated with inflammatory immune response and physiological function of BOEC after LPS challenge 15
1.4.2 Temporal pattern of miRNAs potentially targeting inflammatory immune response genes 15
