I Introduction 1

1 Introduction 3
  1.1 Contributions 7
  1.2 Outline 8

2 Background 11
  2.1 Related Work 11
     2.1.1 Appearance Modeling 11
     2.1.2 Cloth Rendering 15
  2.2 Elements of Cloth 22
     2.2.1 Fibers 22
     2.2.2 Yarns 22
     2.2.3 Composition 25
## CONTENTS

### II Image-Based Analysis of Woven Cloth

3 Introduction

3.1 Background: Statistical Image Segmentation 33
3.2 Capturing Setups 35
3.3 Overview 36

4 Bi-Scale Regularization of Woven Cloth

4.1 Related Work 42
4.2 Overview 42
4.3 Results 44
4.4 Conclusions 48
4.5 Applications and Future Work 49

5 Image-Based Analysis of Woven Cloth at the Yarn Level

5.1 Related Work 53

5.1.1 Classification into Common Basic Weave Patterns 54
5.1.2 Estimation of Binary Weave Matrix 55
5.2 Notation 56
5.3 Weave Pattern Estimation 57
5.3.1 Implementation 60
5.4 Cloth Segmentation Using an Active Yarn Model 62
5.5 Results 64
5.6 Conclusions 64

### III Visual Prototyping of Woven Cloth

6 Visual Prototyping of Cloth: Overview 73

7 A Procedural Yarn Model

7.1 Results 81

8 Visual Prototyping of Woven Cloth from a Single Image

8.1 Woven Cloth Model 84
