

# Contents

<b>1. Introduction</b>	<b>1</b>
1.1. Extragalactic proper motion . . . . .	3
1.2. M81 Group. . . . .	4
1.3. Supernova SN2008iz . . . . .	6
1.4. Aims and the structure . . . . .	9
<b>2. Radio Interferometry and Astrometry</b>	<b>11</b>
2.1. VLBI principles . . . . .	11
2.2. Data calibration . . . . .	19
2.3. Astrometry . . . . .	22
2.3.1. Phase-Referencing . . . . .	22
2.3.2. Total phase delay . . . . .	23
2.3.3. Tropospheric delay corrections . . . . .	24
2.3.4. Relative Astrometry . . . . .	26
<b>3. Observation and Data reduction</b>	<b>27</b>
3.1. VLBA Observations . . . . .	27
3.2. Geodetic block . . . . .	29
3.3. Data Reduction . . . . .	32
<b>4. M81 Proper Motion</b>	<b>37</b>
4.1. Introduction . . . . .	37
4.1.1. Apparent source size . . . . .	37
4.1.2. Peak flux density variation . . . . .	38
4.1.3. Core location and jet motion . . . . .	39
4.1.4. Polarization . . . . .	39
4.2. Results . . . . .	40
4.2.1. Core location Estimate . . . . .	40
4.2.2. Morphology of continuum sources . . . . .	42
4.2.3. Proper Motion results . . . . .	45
4.3. Discussion . . . . .	50
4.3.1. Space Motion of M81 . . . . .	50
4.3.2. Rotation motion of the Sun . . . . .	50
4.3.3. The proper motion of M81 . . . . .	56
<b>5. M82 Proper Motion</b>	<b>57</b>
5.1. Introduction . . . . .	57
5.1.1. M82 galaxy morphology . . . . .	57
5.1.2. Maser sources in M82 . . . . .	59
5.2. Results . . . . .	59
5.2.1. Spatial structure and variability . . . . .	60
5.2.2. Observed motions . . . . .	67
5.3. Discussion . . . . .	68
5.3.1. Space motion of M82 . . . . .	68
5.3.2. Rotation motion of M82 . . . . .	68
5.3.3. The proper motion of M82 . . . . .	71
5.3.4. Lower mass estimate of M81 . . . . .	72

<b>6. Radio supernova SN2008iz</b>	<b>73</b>
6.1. Introduction . . . . .	73
6.2. Observation and Calibration . . . . .	75
6.3. Results . . . . .	76
6.3.1. Light Curve . . . . .	78
6.3.2. SN2008iz Size Estimate . . . . .	82
6.3.3. Deceleration of SN2008iz . . . . .	83
6.4. Discussion . . . . .	88
6.4.1. Flux-density flare at later date . . . . .	88
6.4.2. Evolution of spectral index . . . . .	89
6.4.3. Equipartition total minimum Energy and Magnetic field . . . . .	90
<b>7. Summary</b>	<b>95</b>
7.1. Proper motion of M81 . . . . .	96
7.2. Proper motion of M82 . . . . .	97
7.3. mass estimate of M81 . . . . .	99
7.4. Supernova SN2008iz . . . . .	99
<b>A. Appendix</b>	<b>101</b>
Summary of the VLBA results . . . . .	101
SN 2008iz Spectral indices . . . . .	103
<b>B. Appendix</b>	<b>105</b>
Acronyms and Abbreviations . . . . .	105
Acknowledgements . . . . .	106
<b>Bibliography</b>	<b>107</b>
