Third-Party Data Sets	9
Used Software	9
1 Introduction	13
1.1 Publications	17
1.2 Outline	19
2 Moment Problems	21
2.1 Moments	21
2.2 Boundary Cases	27
2.3 Overview of Moment Problems and Solutions	31
I Moment Shadow Mapping	35
3 Filterable Shadow Maps	37
3.1 Related Work	38
3.2 Generalized Filterable Shadow Maps	43
3.2.1 Numerical Solution	45
3.3 Benchmark of Candidate Techniques	47
3.4 Results and Discussion	50

4	Moment Shadow Maps	55
4.1	Hamburger Moment Shadow Mapping	56
4.1.1	Algorithm	56
4.1.2	Implementation	60
4.1.3	Biasing	62
4.1.4	Quantization	64
4.1.5	Scaling and Translation of Depth Values	67
4.2	Results and Discussion	68
4.2.1	Qualitative Evaluation	68
4.2.2	Run Time	73
4.2.3	Conclusions	74
5	Translucent Occluders	77
5.1	Related Work	77
5.2	Moment Shadow Maps for Translucent Occluders	78
5.3	Results and Discussion	79
6	Soft Shadows	83
6.1	Related Work	83
6.2	Summed-Area Tables with Four Moments	85
6.3	Blocker Search	86
6.4	Filtering	87
6.5	Optimization	88
6.6	Results and Discussion	88
6.6.1	Qualitative Evaluation	89
6.6.2	Run Time	91
6.6.3	Conclusions	93
7	Single Scattering	95
7.1	Related Work	95
7.1.1	Prefiltered Single Scattering	96
7.2	Rectification with Filtering	99
7.3	Prefiltered Single Scattering with Four Moments	102
7.3.1	Adaptive Overestimation	102
7.4	Prefiltered Single Scattering with Six Moments	103
7.4.1	Computation of Roots	104
7.4.2	Computation of Bounds	104
7.4.3	Quantization and Biasing	105
7.5	Results and Discussion	106
7.5.1	Qualitative Evaluation	106
7.5.2	Run Time	110

7.5.3	Conclusions	110
II Fast Transient Imaging		113
8	Fast Transient Imaging	115
8.1	Related Work	116
8.2	Reconstruction of Impulse Responses	118
8.2.1	Signal Formation Model	118
8.2.2	Reconstruction via Trigonometric Moments	121
8.2.3	Properties of the Reconstruction	124
8.3	Measurement Procedure	125
8.3.1	Achieving Sinusoidal Modulation	125
8.3.2	Calibration	127
8.3.3	The Zeroth Moment	129
8.4	Analysis of Impulse Responses	130
8.4.1	Perfect Reconstruction of Sparse Responses	130
8.4.2	Error Bounds	132
8.4.3	Estimating Range	135
8.4.4	Cumulative Transient Images	136
8.5	Results and Discussion	138
8.5.1	Transient Imaging	138
8.5.2	Range Imaging	143
8.5.3	Transient Video	146
8.5.4	Conclusions	147
Closure		151
9	Conclusions	153
9.1	Future Work	154
Appendix		157
A	Overview of Previously Unpublished Contributions	159
A.1	Moment Shadow Mapping	159
A.2	Applications of Moment Shadow Mapping	161
A.2.1	Translucent Occluders	161
A.2.2	Soft Shadows	162
A.2.3	Single Scattering	162
A.3	Transient Imaging	163

B	Derivations and Proofs	165
B.1	Optimal Biasing for Moment Shadow Mapping	165
B.2	Scale and Translation Invariance of Hamburger Moment Shadow Mapping	169
B.3	Hausdorff Moment Shadow Mapping	170
B.4	Trigonometric Moment Shadow Mapping	173
B.4.1	Derivation	174
B.4.2	Implementation	178
B.5	Maximum Entropy Spectral Estimate	179
B.6	Pisarenko Estimate	186
C	Implementation Details	189
C.1	Hamburger Moment Shadow Mapping	189
C.2	Hausdorff Moment Shadow Mapping	190
C.3	Prefiltered Single Scattering	192
C.3.1	Bounds for Rectified Coordinates	192
C.3.2	Transmittance-Weighted Prefix Sums	193
C.3.3	Hamburger Moment Shadow Mapping with Six Moments	195
	Bibliography	199
	Index	211
	Nomenclature	213
