

## TABLE OF CONTENTS

Acknowledgements .....	iii
List of Tables .....	viii
List of Figures.....	ix
Summary.....	xi
Zusammenfassung.....	xiii
1 Introduction .....	1
1.1 Preface: Uncertainty in water management.....	1
1.2 Uncertainty challenge at the science-practice interface .....	3
1.3 Aim and objectives .....	6
1.4 Scientific approach and methods.....	9
1.4.1 Literature review .....	10
1.4.2 Expert elicitation and survey .....	12
1.4.3 Qualitative systems analysis .....	13
1.5 Overview of manuscripts .....	14
2 Integration of uncertainties in water and flood risk management .....	17
Abstract.....	17
2.1 Introduction .....	18
2.2 Risk, uncertainty and the need for knowledge transfer .....	19
2.3 Conceptualisation of the framework .....	20
2.3.1 Risk perspective.....	20
2.3.2 Uncertainty perspective .....	21
2.3.3 Bridging the two perspectives.....	23
2.4 Concept validation with expert interviews .....	25
2.4.1 Integrating the risk perspective .....	25
2.4.2 Uncertainty focus .....	25
2.4.3 Interrelations of causal uncertainties .....	26

2.4.4	Resources and transparency .....	27
2.5	Conclusions and Outlook .....	28
3	Perception and handling of uncertainties in water management - A study of practitioners' and scientists' perspectives on uncertainty in their daily decision-making	29
	Abstract.....	29
3.1	Introduction .....	30
3.2	Materials and Methods.....	32
3.2.1	Qualitative analysis – Expert interviews .....	32
3.2.2	Quantitative analysis – Questionnaire .....	33
3.3	Results .....	34
3.3.1	Perception of uncertainty .....	35
3.3.2	Definition and sources of uncertainties .....	36
3.3.3	Handling of uncertainties during assessment - the process of understanding	38
3.3.4	Integration of uncertainties in decision-making at the interface of understanding and deciding.....	40
3.3.5	Communication .....	43
3.4	Discussion.....	45
3.4.1	Science-based versus practice/policy-based approach .....	45
3.4.2	Paradigm shift in water management.....	45
3.4.3	Risk and uncertainty framing .....	46
3.4.4	Expertise and experience .....	47
3.5	Conclusion .....	47
4	Decision-making under uncertainty: Acknowledging plurality of water managers' uncertainty handling routines through qualitative system analysis.....	51
	Abstract.....	51
4.1	Introduction .....	52
4.2	Materials and Methods.....	53

4.2.1	Deduction of uncertainty routines.....	53
4.2.2	Expert elicitation – Focussing on the “who” and “when” .....	55
4.2.3	Qualitative systems dynamics modelling – Analyzing the “where” .....	56
4.3	Results .....	57
4.3.1	Who – Intra-group variability of practitioners’ uncertainty routines .....	58
4.3.2	When – Influence of timeframe on application of uncertainty routines.....	63
4.3.3	Where – location of uncertainty routines in decision-making process .....	66
4.4	Discussion and conclusion.....	71
4.4.1	Uncertainty and communication .....	72
4.4.2	Uncertainty and learning for decision-making.....	73
4.4.3	Uncertainty and plurality of perspectives in water management .....	73
4.4.4	Concluding remarks.....	75
5	Conclusion and outlook .....	77
5.1	Contribution to understanding and improving uncertainty integration .....	77
5.2	Contribution to science-practice-gap research.....	81
5.3	Research limitations.....	83
5.4	Outlook: uncertainty in water management .....	84
6	References .....	87
7	Appendices.....	97
7.1	Expert elicitation .....	97
7.2	Expert survey.....	101
8	Publications.....	105
8.1	Peer-Reviewed Journal Articles / Book Chapters.....	105
8.2	Conference Contributions (selected) .....	106
8.2.1	Oral presentations.....	106
8.2.2	Poster presentations .....	107
9	About the author .....	109
